To Whom it may Concern,

For over 40 years, Hospital Systems, Inc has been an industry leader in the development, design and manufacture of patient care headwalls, consoles, neonatal/ Labor & Delivery, bed locators and their accessories. Our personnel are truly professionals in their trade, as evidence by the precision workmanship and quality that is put into each project whether a single unit or an entire healthcare facility build.

As a fifth generation family owned and operated company we strive for personal service, flexibility, convenience and responsiveness. We continue to set increasingly ambitious goals for ourselves, and we have the intense vision and resources to achieve them. With sales both domestic and international, we have increased our research and development initiatives, achieved significant technological advancements and strengthened our position as a premier manufacture of capital equipment. Even in times of challenging economic conditions we are finding new ways to take advantage of the ever evolving industry ensuring that for every project; the clinicians are happy with the headwall functionality, the hospital is happy with the budget and our designers are happy with the aesthetic.

We plan to continue leading the way in the headwall industry, working directly with the facilities, engineers and architects to meet all design objectives, to add value and remove unnecessary costs right from the start.

Thank you for continuing to help Hospital Systems, Inc bring to the industry unmatched customer service, design development and the longest product warranty in the industry, we look forward to assisting you in your future endeavors.

Best Regards,

A handwritten signature in blue ink, appearing to read "Becca Miller".
